

Giżycko, January 2015

Dear Sir, Madam,  
Colleague pilots !

I represent Aeroklub Krainy Jezior and would like to invite you to *XVII FRIENDS OF AVIATION AND MASURIA INTERNATIONAL FLY-INN* (30.07-02.08.2015, Giżycko, Poland) and ask about possibility to honor our event and present seaplane(s) and popularizing its operating capacities during *MAZURY AIRSHOW 2015* (1-2.08.2015)

Aeroklub Krainy Jezior (Lakes District Aeroclub) - our organization, associating pilots and aviation enthusiasts, is located in Giżycko (NE of Poland), the heart of *Great Masurian Lakes District* - the finalist of "New 7 Wonders of Nature" conquest.

We organize, since the end of previous century, the annual *Friends of Aviation and Masuria International Fly-Inn* (which takes place this year 30 July – 2 August) which culmination is two days Mazury AirShow (1-2 August). The motto of fly-in is "come, rest and meet the Masuria".

**Mazury AirShow** takes place in two neighbours localizations:

- **Ketrzyn-Wilamowo Airfield (EPKE)** - base airfield for all aviation operations, static displays, pilots meetings, press conferences... Airfield filled-up with history - established in 1935 and in 1941 expanded as the airport for secret Hitler's headquarter - "*Wolf's Lair*" ("*Wolfschanze*"). Here, took-off in Heinkel He 111, colonel Claus von Stauffenberg just after Hitler's assassination attempt, during Operation "*Valkyria*" and it was here, where in February 1942 the plane with Fritz Todt on board, crashed shortly after take-off.
- **Niegocin lake** – one of the biggest polish lake, natural amphitheater, whose three main advantages we are trying to use as best as we can – its scenic, charm value, accessibility for visitors and the opportunity to present the full capabilities of seaplanes. This is the main place of dynamic displays. The show can be watched by viewers from the beach, pier, shores and all kind of vessels in the safety zones.

The admission entrance is free of charge, the air show take place in a middle of summer holidays and in the heart of polish best holiday destination so we gather every year tens of thousands spectators as also wide spectrum of media attention.

Over the past 17 years we had the pleasure and honour to host, during our fly-ins and air shows, many national and international owners, operators and flying crews in the construction of military, aerobatic, historical and, very for us important seaplanes.

Some views of Masuria our aviation guests can take with

The fly-in and Mazury AirShow 2015 programme will be updated online on our website [mazuryairshow.pl](http://mazuryairshow.pl)

It would be a great pleasure for us if You would like to honour our fly-in and/or air show with Your presence.

On behalf of the co-organizers  
Your sincerely

Jakub Fajfer  
Mazury AirShow

Mazury AirShow is really one of the highlights of our European Airshow tour. We enjoyed meeting everyone there and found everything there as good as it can be! We loved it and always tell our friend and acquaintances they should plan to fly there.

Tom Schrade  
Pilot, Sikorsky S-38 „The Explorer's Air Yacht”

...[The Flying Bulls] participated last 2 years at several air shows in India and Egypt and you should mainly note that Mazury AirShow is the most appreciated event by the team :-)

Martin Nepovím  
PR, Menager The Flying Bulls

During Mazury AirShow you can experience a homelike atmosphere. With each step you can feel a homely atmosphere on the one hand and professionalism on the other. We don't lack anything here, from heartiness to the technical support. The background of the event is also unique, lakes, forests as well as flights over the lake - you don't forget it easily.

Uwe Zimmermann  
Aerobatic pilot, Extra-200

Mazury AirShow - it is very nice event on the very nice and very pleasure place . The very friendly atmosfere on the airport EPKE and very nice public around the lake. Flying over the lake is every time very fascinating for both - for pilots on the air and for public on the ground also.

Radka Máchová  
Aerobatic pilot, "The Flying Bulls" team leader
